TAKE YOUR COMPUTING SKILLS AROUND THE WORLD

ARMY CYBER ENGINEER
IN THE ROYAL SIGNALS

ARMY BE THE BEST

BASE — BRITISH ARMY SUPPORTING EDUCATION

Related roles:
Supply Chain Operative, Power Engineer, Electronic Warfare Signals Intelligence and many more.

WHY JOIN?

DEVELOP ESSENTIAL FUTURE SKILLS AS A CYBER WARFARE SPECIALIST.

• Specialise in information systems, networks or data infrastructure.

• Learn to install, service and repair communications equipment, networks, servers and more.

• Earn while training and travelling the world.

• Professional certifications and learning opportunities up to Masters Degree level.

> The most well-travelled trade in the Corps, I have been to the Falkland Islands, the Ascension islands, Cyprus and Kenya, all while building up accreditation towards professional trade status.

WHAT YOU NEED TO JOIN

EVERYTHING YOU NEED TO KNOW.

You'll need **GCSE Grade C/4 Maths, Grade D/3 English Language** or their **level 2** equivalents.

SALARY AND BENEFITS

START EARNING OVER £20,000 AFTER BASIC TRAINING.

Earn around £16k a year while you train, rising to around £21k when you finish basic and trade training or after 26 week's service – whichever comes first – and over £24,000 when you finish your trade training.

Worldwide travel and adventure training.

If you have any questions, call us on **0345 600 8080** or visit your local Army Careers Centre.
