Hello and thank you for registering for your free Amazing Apprenticeships school display pack, September 2022.

We couldn't be more excited to bring you this new display pack. It's a fun, free resource full of colourful and thought-provoking content, designed to give you everything you need to create a display that will inform and inspire your students, and to help you enrich conversations about apprenticeships with your students. We really hope you enjoy using it!

We've seen time and time again the difference that an apprenticeship can make to a young person – and the difference that apprentices can make to their employers. We're distributing this new pack free of charge to schools and colleges nationwide – we hope it empowers you to help your students understand and explore the many amazing opportunities that apprenticeships can offer.

How to use the pack (and win a £100 voucher for your school...)

You can use the materials in this pack to create a dedicated apprenticeships display in your classroom, common room or careers space, and start opening eyes, broadening horizons and initiating invaluable conversations about options as your students consider what they might like to do next.

We're also offering a prize for the best apprenticeships display made using this pack. Winning a £100 voucher for your school is as easy as 1, 2, 3...

1. Put your apprenticeships display together using the materials in this pack
2. Take a photo of your best effort
3. Share that picture with us on social media (we're [@AmazingAppsUK](#)) by 5pm on Monday 17th October. We're on Twitter, Facebook, LinkedIn and Instagram.

...and we'll be in touch with the winner by Friday 21st October 2022.

If you need any inspiration for how to set your display up, just browse the example images overleaf.

We look forward to hearing your feedback and to seeing your shared designs!

As always, if you have any questions or problems, please message hello@amazingapprenticeships.com or visit www.amazingapprenticeships.com

Looking for inspiration?

Here are some ideas for how your display could look...

Display 1: Traditional layout

Use the colourful elements to create a simple and traditional display within your classroom, common room or careers space. This won't take you all day but still gives you a high impact and informative display.

Display 2: The colour burst

The key here is to grab attention with bright colours and a fun design! Add a colourful border, ribbons, balloons and anything else you can think of to catch your student's attention.

Display 3: The personal touch

Use the display materials provided as a starting point. Consider including your own content - perhaps a past pupil who is now on an apprenticeship, or a message of endorsement from your Headteacher.

Don't forget to send us your designs!

- 1 Put your apprenticeships display together using the materials in this pack
- 2 Take a photo of your best effort
- 3 Share that picture with us on social media (we're @AmazingAppsUK) by 5pm on Monday 17th October.
